

CCR-MAG.COM

IMPORTANT. This audit covers the above website for the period of September 2022. It was conducted by allowing Accountability Information Management, Inc. (AIM) by placing a proprietary Code on the website to provide deeper analytics from the thousands of monthly visitors to the website to the publisher (i.e., the companies utilizing the website). AIM is in the business of auditing and verifying data. For information, contact: AIM, 553 N. North Court, Suite 160, Palatine, Illinois 60067.

PUBLISHER'S STATEMENT. Commercial Construction & Renovation, CCR-MAG.COM, is a community of leading commercial construction professionals within the retail, restaurant, hospitality, healthcare, federal, multifamily and other commercial sectors. The website content spans the design, construction and facilities operations of major commercial construction segments to meet the information needs of today's high-level executives. Visitors will find information relevant to the collaborative management process required to complete projects on time and on budget, and to efficiently manage these facilities.

PRIVACY. F&J Publications, LLC discloses the information we collect on this website and how it is used. This report is based on visitors to CCR-MAG.COM. Specifically, the information in this report is aggregated to provide our advertisers information on website usage. F&J Publications always reserves the right to release information about visitors, including non-personal information.

NUMBER OF TOTAL VISITORS	2,921	This is the number of visitors that the Code identifies. This number is the monthly universe of companies that can be identified from the thousands of visitors to this website.
NUMBER OF TIMES VISITED	13,384	This is the number of times these visitors visited the website. The average per company is 4.6
PAGE VIEWS	19,726	This is the number of page views that these visitors viewed on the website. The average pages viewed by a company this month is 6.8.
SEARCH TERMS USED	51	This is the number of identifiable different search terms these visitors used to arrive on the website. The search terms, for example, were put into a browser which delivered results. Among the results was a page on this website. For example, while many people find it by typing in "commercial construction and renovation" or "CCR" in a search engine like Google or Bing, other terms deliver specific pages from this website based on what users type into the search engine. These searches account for less than 1% of the total search terms used. The top ten (listed) account for 86% of the identified total (not counting CCR itself).
INDUSTRIES	99	This is the number of visitors that the Code is able to classify. It represents 7% of the total companies that visited this website and is supplied for reference only. See UNDERSTANDING THE DATA.
PAGE VIEWED	11,804	The Code keeps track of the first page viewed by the visitors. The chart Key First Pages Viewed lists the top ten landing pages from this grouping (excluding CCR- MAG.com itself, which is among the top, but not more than 11%).

UNDERSTANDING THE DATA

This report is provided to you from the publisher to help you understand the creation, distribution and consumption of information on the digital highways. The companies that are provided to you in this report have visited CCR-MAG.COM and consumed information. Knowing the name of the company/visitor gives you a "heads up" to pursue for your sales efforts. If you need to explore additional ideas, including ways to utilize this information, please contact the publisher or AIM directly. In addition to the INDUSTRY/COMPANY listings, you will see a list that are not categorized by Code into industries. These are sometimes more valuable and should be considered carefully for your sales efforts. Finally, often a company will utilize a general channel (like Comcast), which does not provide the individual company's IP. These visitors are often just as valuable in terms of "what" they consume on our website. We would happy to help you pursue this type of analysis.

SEARCH TERMS USED TO REACH US

- what is fiberglass shingle
- does more durable steel make more co2 emissions to make
- business plan prefabrication
- citadel mcm panels
- dry-vit nt
- how to commercialize a farm
- need of soil reinforcement
- qualities of a safety manager
- residential post construction cleaning
- restaurant construction magazine3d
